

NOTHING BEATS EASY.

RHINO 101 Reusable Label Dispenser.

To simplify your labeling, innovative new RHINO 101 lets you handwrite your labels in the large window, slide the thumb advance without smearing your work, then cut each label with one hand. Nothing is faster, easier or more affordable (it's under \$20). This all-in-one solution uses our industrial-strength adhesive tapes. So you know your labels will stick where you put them – on wire, cable, anywhere. Is it rugged? Of course – it's a RHINO.
